Points: ____ 10 x 2 20

Reading

D Read the text and mark the sentences *T* (true), *F* (false) or *NS* (not stated).

World's Largest Collection of Geysers

Yellowstone National Park is a wonderland. The majority of the world's geysers are preserved here. They are the main reason it was established in 1872 as America's first national park. Later that idea was spread worldwide. It is a mountain wildland, home to grizzly bears, wolves, and herds of bison and elk. The park is the core of one of the natural ecosystems in the world.

Yellowstone's rich and diverse wildlife are as famous as its geysers. Each animal has habitat preferences and seasonal cycles of movement. In a general sense, a particular animal may be at a particular time in a particular place. Early morning and evening hours are when animals are usually fed and thus are more easily seen. But remember that the numbers and variety of animals you see are largely a matter of luck and coincidence.

Biking, camping, fishing, enjoying exhibits and films, and attending ranger-led programs are among the many ways to experience Yellowstone. Join a park ranger for walks, hikes, and campfire programs.

Yellowstone offers countless opportunities for discovery and we hope you will have fun, make lifelong memories, and develop a deep connection to this special place.

1 Yellowstone is in America. .....
2 Yellowstone is one of the national parks. .....
3 Yellowstone is famous for geysers. .....
4 A lot of tourists visit Yellowstone every year. .....
5 Yellowstone was opened in the 16th century. .....
6 Yellowstone is the home of eagles. .....
7 Yellowstone offers different programs. .....
8 Yellowstone is in the north of America. .....
9 They don't give food to animals in Yellowstone. .....
10 There are no mountains in Yellowstone. .....

Points: ____ 10 x 2 20
