b Enjoy your visit.

(Points: $\frac{\quad}{5 \times 1} \quad 5$)

Reading

G Read the text. Some sentences are missing. Match each sentence (A-F) to the gaps (1-5). There is one extra sentence.

UFO Cases from 2013

The second highest number of UFO sightings were reported to the UFO Network (UFON) in 2013; a total of 6,448 reports.

UFON employs trained field investigators with backgrounds in science and law enforcement that interview witnesses to "identify" UFOs. Although most of the reports are identified as known celestial objects, aircraft, meteors, etc., there are always a small percentage of the cases that remain as true "UFOs." 1. _____

UFON's Science Review Board (SRB) consists of scientists with degrees in physics, chemistry, geology and electrical engineering. 2. _____

The SRB has reviewed the best cases from the year 2013 and have identified the strongest cases that cannot be identified as any known object possible for existence in our world.

Like in 2012, a triangular/boomerang-shaped craft that became transparent made the list of interesting cases. This type of report that describes a craft that can cloak is increasing in frequency. 3. _____

But other reports describe flying craft that cannot be explained by a new type of military aircraft. As one witness stated:

"I'm a disabled Vet with over 30 years experience on military aircraft. I have worked everything from old Huey's to T38C Apache Long Bows and Black Hawks.

4. _____ He was Air Force and I was Army with some time in military intelligence. We both have clearances. I know aircraft when I see them, as I had been in enough in night war operations. However, I have no idea what this boomerang-shaped craft was." So it is still unclear what or who we are dealing with, as we still cannot give any reasonable explanation to the registered fact in UFON. 5. _____

Test 4

- A. But the number of them is increasing every year.
- B. My friend Jeff has a few more years experience but much the same background.
- C. Their work experience includes NASA, Lockheed Martin, Northrop Grumman, Advanced Micro Devices, Lawrence Livermore National Laboratory, and France's national space program.
- D. Besides, it could potentially be a new type of military craft.
- E. These latter cases are carefully reviewed by a science board.
- F. We never know the true succession of the events.

Writing

H Write a book review of any book you like. Include:

- paragraph 1: general info;
- paragraph 2: key events of the plot;
- paragraph 3: your comments;
- paragraph 4: recommendations.

(Points: $\frac{\quad}{10}$)
