

Module 1 The science of ecology

Unit 1. About ecology

Unit 2. Biodiversity

Unit 3. Jobs in ecology

Module 2 Ecosystems

Unit 1. Ecosystem

Unit 2. Energy flow in ecosystems

Unit 3. The pond ecosystem

Module 3 Biome

Unit 1. About biomes

Unit 2. Life in rainforest

Unit 3. Why protect rainforests?

Module 4 Environmental issues

Unit 1. Deforestation

Unit 2. Air pollution

Unit 3. Water pollution

Module 5 Climate change and global warming

Unit 1. Climate

Unit 2. Causes of climate change

Unit 3. How global warming affects wildlife

Module 6 Renewable and alternative energy sources

Unit 1. Renewable sources of energy

Unit 2. Solar power

Unit 3. Saving energy

Module 7 Recycling

Unit 1. Waste issues

Unit 2. Recycling basics

Unit 3. The process of recycling

Module 8 Endangered species protection

Unit 1. Endangered species protection

Unit 2. Endangered species: a closer look

Unit 3. Wildlife conservation

Module 9 Natural resources management

Unit 1. Natural resources

Unit 2. Pressures on natural resources

Unit 3. Resource recovery and conservation

Module 10 Green living

Unit 1. Eco green living

Unit 2. Benefits of going green

Unit 3. Green living ways
